

# 2022 Northeast Snow Survey Program

Keith Eggleston  
Regional Climatologist  
Northeast Regional Climate Center

# Snow Surveys

What is a snow survey?

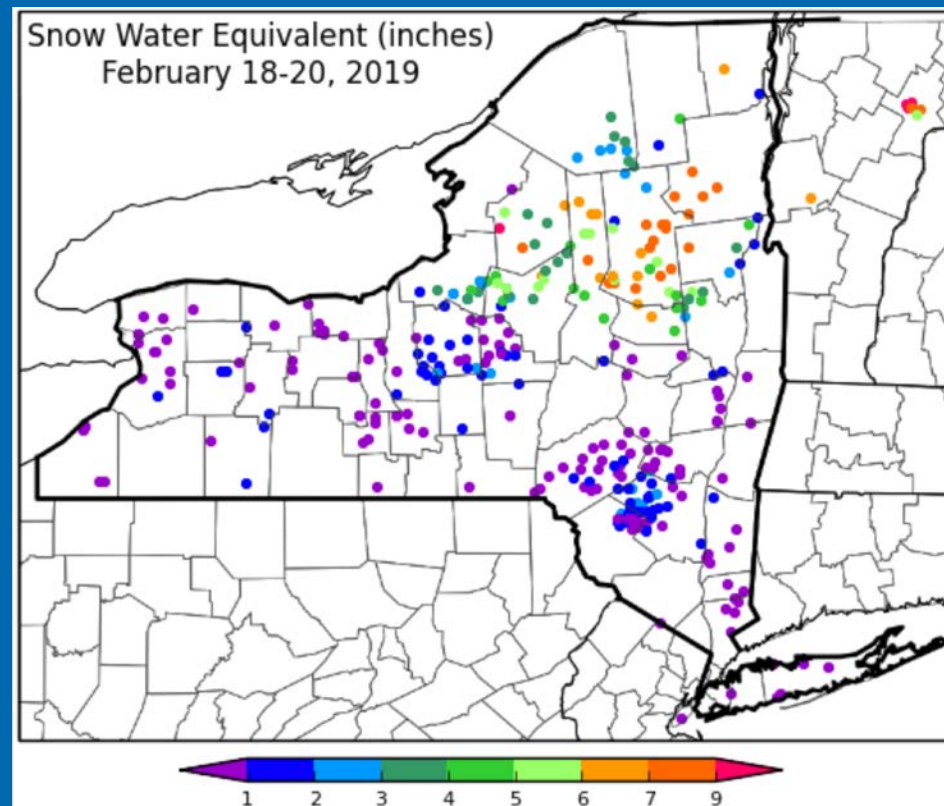

- Observation of snow depth and water equivalent of snowpack
- In Northeast, they are performed bi-weekly
- Early January-early May
- Network of cooperators - NWS, USGS, energy companies, ...

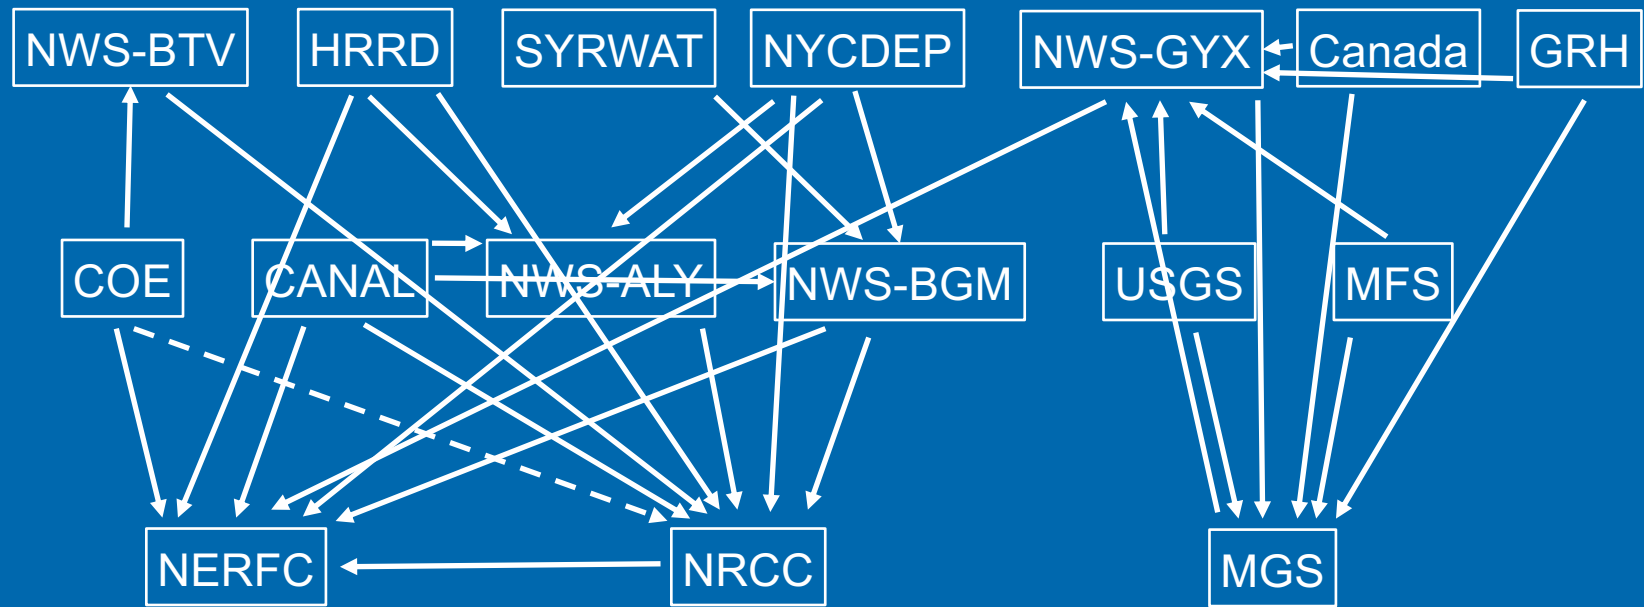

# NY Cooperative Snow Survey

- Program transferred from USGS to NRCC in 1986
- Manage data collection and distribution

## Various disparate efforts in New England

# Snow Survey Data Flow Example

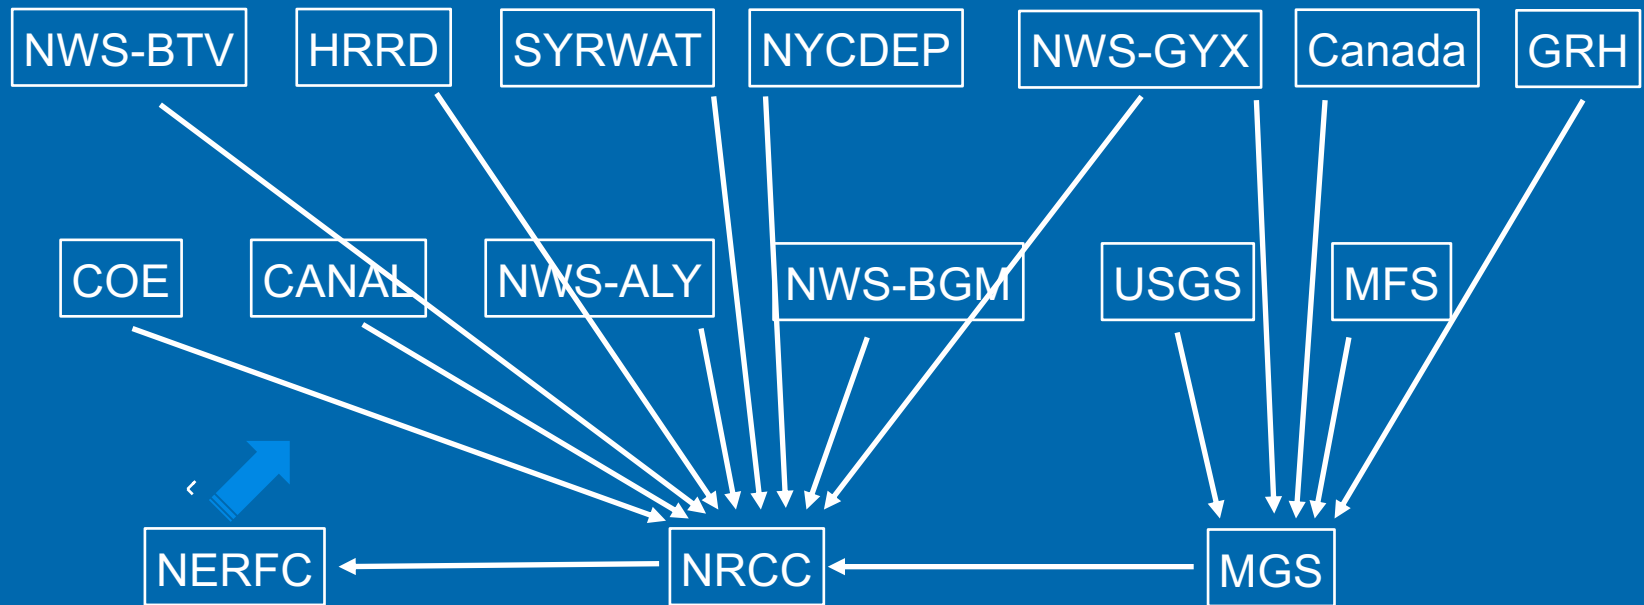

## 2022 Snow Season

- Coordinated effort NRCC, NWS, NERFC, NOHRSC
- Metadata collected for 1045 sites
- Sites assigned NWSLI
- NRCC web data entry and data collection programs

Snow Survey Data Entry										MORE TOOLS
Cooperator ID: BUF.COOP

# Snow Survey Data Flow Example 2022

Not comprehensive

## 2022 Snow Season

- Data sent daily to NERFC for shef-encoding and distribution
- Sites reporting: SS1 – 443; SS1A – 528; SS2 – 543; SS2A - 526
- Maps available on NRCC web site

<https://www.nrcc.cornell.edu/regional/snowsury/snowsury.html>

*Map also includes NY CoCoRaHS and Allegheny River snow survey*
